two standard fabric colors

Anthracite
(CLW22)

Grey
(CLW01)

Acoustics

Acoustic padding based on recycled textile fibre.

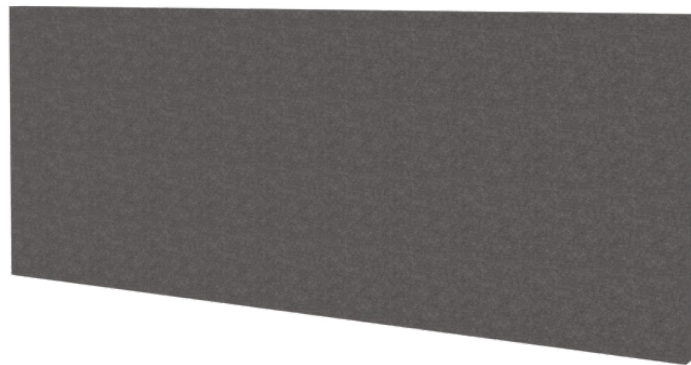

100% recyclable, resistant to mould and complies with fire class B/S1/D0. Sound absorption (ISO 354): $\alpha_w 0.95$

The frame of the all-round upholstered products is made of LVL, laminated veneer wood. LVL consists of several layers of 3mm pine veneer glued together, making it lightweight but relatively stronger than steel. The wood comes entirely from renewable, recyclable wood and is therefore very environmentally friendly. It is therefore PEFC certified and has an EPD eco-label.

ACOUSTIC PANELS

This panel is an all-round upholstered acoustic panel that can be used universally for both single and DUO workstations. This panel is supplied without fixing material, but this is available separately if required.

Optionally; with bracket suitable as front panel for a single sit-stand desk.
